INTERN SUPERVISOR(S) EMAIL ADDRESS: smithv001@mail.maricopa.gov

PROJECT SCOPE & INTENDED OUTCOMES:
The Maricopa County Office of the Public Defender protects the fundamental rights of all individuals by providing effective legal representation for indigent people facing criminal charges. The Office annually provides legal representation in over 35,000 cases for individuals who are not able to afford the services of private lawyers. Utilizing a team approach, clients are assisted by investigators, mitigation specialists, paralegals and other support staff, including students. The Office of the Public Defender would like to invite a MCLEAPS intern to assist with developing a social work/reentry program. Our goal is to provide holistic representation to those in Maricopa County that desperately need it.

1. Recidivism and Reentry
The student will assist in designing a social work/reentry program for the Office of the Public Defender. This will entail reviewing active reentry programs throughout the country, identifying specific needs in our County, locating gaps and barriers to services, creating relationships with local providers and understanding the criminal justice process. The student will assist in examining the role that appointed counsel can play in system mapping of County services related to reentry and recidivism. The student will be required to submit a proposal for a lasting and effective reentry program. The student will do this while assisting mitigation specialists with reentry planning. This includes finding housing, mental health treatment, drug and abuse counseling services and educational opportunities for current clients. The student may be required to advocate on client’s behalf, arrange services, complete applications and act as a liaison between different agencies and services.

2. Assisting with Restoration of Rights Events
The student will assist with restoration of rights events. The events offer free one on one help for adult and juvenile ex-offenders who wish to restore their civil rights and have their cases set aside. The student will assist with finding and training volunteers, publicizing events and organizing required materials. Events are currently held quarterly at Dress for Success, 1024 E Buckeye Road, Phoenix.

3. Contribute to Mitigation and Research on Juvenile Life Cases
Thousands of individuals sentenced as juveniles, to life without the possibility of parole, now have a chance for release in the wake of recent Supreme Court decisions. The student will assist mitigation specialists and appellate attorneys with research on brain development, the idea of “irreparable corruption” and heightened capacity for reform in juveniles. The student will review case files and discovery to find mitigation that will assist in release and will help with reentry planning.

4. Develop an Undergraduate Program to Assist the Office of the Public Defender with Reentry
The student will assist with designing an undergraduate program for students that are interested in reentry servicers for the indigent population. This will involve the student shadowing different support positions in the office to determine how undergraduate students can assist with reentry. The student will develop key expectations for each student eligible position and will determine metrics for student qualifications.
